Name of Organisation that tested bulls _____

Declaration: I am the person in charge of these animals and I declare that the information above is true and accurate.

Name: (person in charge) _____

Signature: (person in charge) _____ Date: _____

BVD Bull Certificates

The intent of the bull testing and vaccination certificates in this booklet is for the bull breeder (vendor) to fill out so the relevant information can be passed on to the bull purchaser along with the Animal Status Declaration at the time of transport. While veterinarians may want/be asked to help fill these forms out, they should understand these are not intended to be used as a veterinary certificate but rather a farmer declaration.
