Signature: (person in charge)					Date:		

## **BVD Bull Certificates**

The intent of the bull testing and vaccination certificates in this booklet is for the bull breeder (vendor) to fill out so the relevant information can be passed on to the bull purchaser along with the Animal Status Declaration at the time of transport. While veterinarians may want/be asked to help fill these forms out, they should understand these are not intended to be used as a veterinary certificate but rather a farmer declaration.

Working to free New Zealand cattle farms from BVD.
